String #07, 2010, aluminium, magnet, nylon, ping pong balls, suction cup, 60 x 40 x 20 cm, courtesy of Federico Luger Gallery, Milan

Against the gravity and Newton ideas two balls are stay closed. How is it possible? Is there any magnet inside? Any magic device are mocking us? We couldn't believe, but we are forced to do it. We need more time to think about it.

Michele Spanghero

1/10.000, 2010, metal tank, aluminum, speaker, cd player, 34 x 34 x 38 cm, courtesy of Galerie Mazzoli, Berlin

A strange sound coming from a round metal object. In the same time the tank is a sculpture and a sound making thing telling us something about its industrial origin. In the same time we are viewer and listener, we are not able to decide what to do.
